8 December 2010

Policy 10: CAREER FIRE & RESCUE IDENTITY AND RANK MARKINGS

There is to be a Career Fire and Rescue rank structure up to and including a commissioned Chief Officer, and FRS of WA is to be recognised as an entity within their own right.

Career Firefighters should be referred to as Fire and Rescue staff, not FESA staff. FESA is an umbrella authority and the FRS of WA must retain its identity.

The Authority should provide the UFU of WA a matrix outlining rank insignia and competencies of all operational levels within FESA.

Members that cannot interpret the operational competencies of other personnel through their uniform or rank markings should fill out an OHS Hazard report form as soon as possible after such an incident.
